

Warning Notice & Disclaimer

Arise Academies offers educational products that include digital and online interactive training content for analysing, learning & discussing general and generic information related to investments and strategies. CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. 76.4% of retail investor accounts lose money when trading CFDs with this provider. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.

Arise Academy, its independent business owners and educators do not provide personalized recommendations or advice on investment strategy nor do they provide any regulated financial services.

Arise Academy may share trade ideas which must be followed on DEMO ACCOUNT ONLY. Following a trade idea on a REAL ACCOUNT may result in the total loss of the funds that you deposit at a Financial Institution, and you may incur losses in excess of your deposits. Leverage can work against you as well as for you.

Trading foreign exchange is not for everyone. Trading foreign exchange on margin carries a high level of risk, and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. Before deciding to trade foreign exchange you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a loss of some or all of your initial investment and therefore you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with foreign exchange trading, and seek advice from an independent financial advisor if you have any doubts.

Although rare, AI-based trading can involve technical risks related to, but not limited to, Internet connection, software or hardware failures, or delays. Arise Academy and its partners implement a backup system to minimize such occurrences, but is not responsible for any losses or missed trading opportunities as a result of communication failures, disruptions, or unexpected system failures. Arise Academy recommends the AI scanner be used on a demo account only. The AI scanner is available to our students for educational purposes only.

Before you engage in transactions using an electronic system, you should carefully review the rules and regulations of the exchanges offering the system and/or listing the instruments you intend to trade. Online trading has inherent risk due to system response and access times that may vary due to market conditions, system performance, and other factors. You should understand these and additional risks before trading.
